### IMT DiamondAir® Series 85 Rotary Screw Air Compressor System

- Compact underbody installation – more useable bed space and payload
- Unique compressor oil and air filtering and cooling - provides cool, clean, dry compressed air
- PTO direct operation minimizes maintenance
- Two hose reels standard – One lubricated for operation of air wrench, One regulated for inflating tires

### 7415 - 74,000 ft-lb TireHandler® Crane

- Handles up to 24.00-49 tire with rim or 37.5-39 tire only up to 3000# with TireHand® 7 clamp attachment
- Crane capacity range from 12,000# @ 6' to 4700# @ 15'1"
- Center mount crane offers proper placement of torsional loads
- Boom extension and A-frame outrigger cylinders are protected from damage
- Cylinder counter-balance valves prevent collapse due to hose failure and prevents boom drift
- Designed, constructed and tested to stringent ASME/ANSI B30.22 standard
